KO MANUFACTURING INC.

BRICK & CONCRETE CLEANER

PRODUCT NUMBER 118

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

PRODUCT DESCRIPTION:

Brick & Concrete Cleaner is an excellent general purpose cleaner that removes excess mortar, grout smears and construction dirt from brick masonry, tile and most concrete surfaces. Brick & Concrete Cleaner is a fast acting cleaner designed for concrete, scale, and oxide film removal. This concentrated solution is effective at removing hardened concrete and scale, yet will not harm painted surfaces when used properly. Brick & Concrete Cleaner is also exceptional at removing scale build-up commonly found on fiberglass boat surfaces, leaving a crisp, clean finish.

INSTRUCTIONS:

Brick Cleaning:

Thoroughly prewet a large area with fresh water. Thoroughly apply diluted solution (5 to 15 parts water to 1 part concentrate) freely from bottom to top. Avoid drying. Reapply in needed. Thoroughly high-pressure rinse with clean water.

For scale and oxide build-ups, dilute 1 part Brick & Concrete Cleaner with 10 parts water. For heavy scale or concrete, use concentrated. Apply using a chemically inert pump-up sprayer directly on surface. Let sit for 3-5 minutes and rinse with fresh, cold water at high pressure to loosen and break scale. Repeat if necessary.

CUSTOMER BENEFITS:

- Removes concrete and scale quickly.
- Will not harm paint.
- Fast and easy to apply.
- Excellent for scale removal on fiberglass boats.
- Biodegradable.
- Concentrated for best value.
