KO MANUFACTURING INC.

RECLAIM-IT™

PRODUCT NUMBER 357

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

PRODUCT DESCRIPTION:

Reclaim-It is an excellent liquid product formulated for the car-truck wash industry. The blend of builders, solvents, and synthetic wetting agents quickly penetrate and remove soils oil and greases but then allows for quick release of the emulsified oil. This release of suspended oils makes this product ideal for use with water reclaim systems. Reclaim-It is a multifaceted product which is biodegradable.

INSTRUCTIONS:

Vehicle Washing: Dilute Reclaim-It from 3 to 5 ounces per gallon of water for final application. Reclaim-It may be used in a pressure washer or applied by hand. For presoaking, spray on surface and let set for 1 to 3 minutes, remove with high pressure. Dilute through high pressure washer at 50:1 to 70:1, depending on soil load.

CUSTOMER BENEFITS:

- Biodegradable.
- No foaming ability.
- Rapid penetration and removal of soil.
- Safe on normally washed surfaces.
- Quick release of emulsified oils.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.
